

LNC VIRTUAL LEARNING FACTSHEET

the learning nuggets company

Customised & International Standard Management, ICT & Vocational Learning Solutions For Clients In Sub-Sahara Africa.

Our solutions are right for those preparing to enter the job market or those in existing roles who wish to develop new skills or enhance their current and gain further knowledge. If you are an organisation committed to developing the competences and skills of your workforce, using our managed learning environment, we will work with you to achieve the excellence and expertise you require of your professionals.

Key Features

Learner Workspace

- Learner Workspace is a personalised learning environment where users can access eRooms, manage their networks, documents, folders, calendars, forums, publish news and conduct polls & surveys.
- Learner Workspace enables users to:
 - Edit and share files and folders in the document library.
 - Discuss and record issues with other members in their learning network in the conversations forum.
 - Track important milestones and dates in the event calendar and assign tasks and track work to completion using the task list.
 - Participate in surveys and polls, Initiate chats and participate in discussion forums.
 - See which members of their learning community are online.

- eRooms are private sections of your LNC Workspace for managing your projects and communities.

Mentored Action Learning™ (MAL)

- Learn – Apply – Support:** through conducting individual learning, testing knowledge, tailoring to operational needs and support by certified trainers.
- Based on the notion that adults learn through experience and trial and error, MAL has been developed by CrossKnowledge as a revolutionary pedagogical format. *What is the basic principle?* Learners, with supervision from a certified trainer, carry out a real mission that is directly linked to the theme of the course. This is what is known as **Mentored Action Learning™** and the interaction with the trainer results in the real assimilation of the subject.
- MAL courses include: Management, Personal Development, Communication, Marketing, Sales, Management Control and Finance.

Safari Books Online™

- Safari Books Online is an on-demand e-reference resource for technology and business professionals. Provides access to over 12,000 books and 594 videos. Users can:
 - Access existing publications from some of the world leading publishers from the Pearson Group..

LNC VIRTUAL LEARNING FACTSHEET

the learning nuggets company

- Search for books, videos and download other online reference resources.
- Specify their preferences and favourites and receive notification of the latest publications, news and get downloads.
- Break away from using the computer screen and read award-winning Safari content at their leisure via their Blackberry, iPhone, Treo, and other popular Smart phones. Content is delivered from a Wi-Fi network to devices and connecting cables are not required.
- Access Rough Cuts pre-published manuscripts that provide first access to cutting edge technology topics. Also discover cover prototypes or betas of new features.

Courses

- We provide customised online and mobile learning and offer international accredited courses in ICT, vocational and management training. For example, our SmartLearn™ ICT courses include: European Computer Driving Licence, Microsoft Office 2000 and Microsoft Office 2007. For more advanced computer managers and support staff, Comptia A+, Windows XP Professional and Windows Server 2003.
- LNC continues to expand its portfolio of courses in this range and develop new partnerships to increase its library of high quality digital content for vocational, ICT and management courses.

Book Exchange

- Users can sign-up to list a book or learning resource for sale or loan. Other users search for items and receive email or SMS alerts when the items become available or a buyer is found.

Free Learning Resources & Tools

- You will find a variety of Free Third Party learning resources for access and download e.g. the Kasahorow African Dictionary - Yoruba, Fanti, Hausa, Ewe, Asanti Twi, Bambara and more.

Learner Support

- Aside from our online technical support, are in 2010 launching the e-Facilitator course and e-Tutor learner support services. Learners will be able to connect with a subject matter expert to guide them through their studies. Subject matter experts are drawn from our broad spectrum of registered and vetted facilitators worldwide.

Consultancy Services

- We work with our clients in the areas of strategy development and implementation (feasibility, cost and risk assessments, analysis and design and implementation), content development & localisation, content management, online and mobile solutions.
- We help our clients create new multimedia content for learning and access via Online,
